ROTTERDAM
AHOY

When you think of Rotterdam Ahoy, you think of energy and music. Ever since Pink Floyd rocked the Ahoy Arena on April 3rd 1971, a landmark in Dutch pop music was created and the foundation was laid for a decades long tradition.

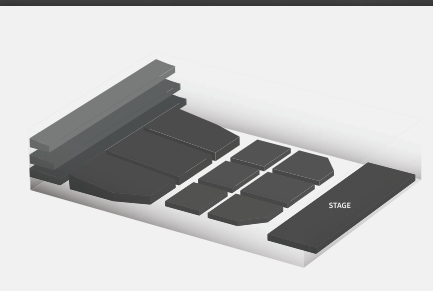

Now, almost 50 years later Rotterdam Ahoy is on the eve of opening another impressive stage on its premises. At the end of 2020 the doors of RTM Stage will open, a brand-new concert hall with a capacity of 7,000 people, truly Ahoy Arena's (cap. 16,424) little brother.

Apart from a concert hall, RTM Stage is also a beautiful theatre with flexible stands which can transform the hall into a 2,750 seats intimate room. Perfect for theatre plays, seated concerts, cabaret and more.
