5-8 Nov | Rotterdam Ahoy

## EUROPORT MASTERCLASS 'NAVAL INNOVATIONS AS SOURCE OF INSPIRATION'

DATE: TUESDAY 5 NOVEMBER | TIME: 14:30 - 18:00 (INCL. NETWORK RECEPTION) | CATEGORY: NAVAL VESSELS

Today, governments around the world invest increasingly in their naval forces. From surface ships and submarines to smaller drone ships; new solutions that smarten maintenance or increase the safety of personnel. Throughout history, governmental organisations and dedicated defence corporations have been the driving force behind important breakthroughs. Innovations that crossed the boundaries of the naval sector and proved tremendous value for commercial shipping. How about the future?

### Programme

Introduction by chairman  
**Mr. Marnix Krikke**  
Netherlands Maritime Technology

Duo presentation about trends and developments in maintenance concepts  
**Dr. Maarten Driessen**  
Gordian

Duo presentation about trends and developments in maintenance concepts

**Mr. Björn Mes**  
Damen Schelde Naval Shipbuilding

Autonomous Surface Vehicles, what can we learn from naval developments  
**James Cowles**  
L3Harris

### Why should I attend?

In this Europort Masterclass, experts will share their vision on innovation in the naval sector. How do companies innovate for the naval sector? What are the latest developments? And how can naval innovations inspire the commercial shipbuilding and shipping industry? During the network reception you will have the opportunity to interact with these experts and other attendees.

### Who should attend?

Representatives of maritime safety and security organisations, naval defence, shipyards or key suppliers for onboard systems and equipment. Such as innovation managers, R&D specialists, business developers, researchers, engineers, naval architects, shipyard project managers, maritime suppliers, class societies and policy advisors of regulatory bodies.

### Registration

Attendance costs per Masterclass are € 125, - (excl. VAT). If you register for all four Masterclasses a special all-in fee of € 375, - (excl. VAT) applies. Full time students will be able to apply for a discounted fee of € 25, - (excl. VAT) per Masterclass. The cost of attendance includes entrance to the exhibition and a network reception or lunch.
