

A safe & hospitable visit

InfraTech2021

Leading platform for infrastructure in the Netherlands

January 12-15 | Rotterdam Ahoy

On Tuesday 12 to Friday 15 January 2021 we can speak to each other again in person, exchange knowledge and experiences and inspire each other. Precisely because we all spend a lot of time online, we notice that the need to meet each other live is currently very great. However practical all digital possibilities may be, nothing beats personal appointments. InfraTech is the perfect opportunity for this. During InfraTech the entire chain comes together: government, market and knowledge. Together we look to the future. We determine the direction of the infrastructure sector for the coming years. Connecting and coming together is more important than ever! Obviously in a safe way in accordance with the regulations of the RIVM and with a spacious setup that is possible in Rotterdam Ahoy.

We are therefore pleased to welcome you in a safe and hospitable manner. Our priority is to provide a safe environment for all exhibitors and visitors and therefore we will take several precautionary measures. The current advice and measures given by the RIVM are always the starting point.

This page contains the guidelines for all exhibitors, visitors, suppliers and partners of InfraTech and shows the measures taken by the organization to ensure the safety and health of all its stakeholders.

We are busy with the preparations to welcome you in a responsible manner.

Prior to visit

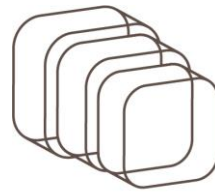

It is only possible to visit InfraTech with an online registration. You can register via this page.

In order to guarantee the safety of our visitors and to give everyone the opportunity to visit the fair, we work with starting times during this edition.

General guidelines

We ask our exhibitors, visitors, suppliers and employees to comply with the RIVM guidelines:

- Stay 1.5 meters away from other people, this is always the norm
- Do not shake hands
- Wash hands regularly
- Cough and sneeze into your elbow and use paper tissues to blow your nose and discard them after use
- Stay at home with mild cold symptoms such as sniffing, coughing, sore throat or fever
- Stay home if you have roommates with a fever

InfraTech2021

Leading platform for infrastructure in the Netherlands

January 12-15 | Rotterdam Ahoy

During your visit

We prepare our location for the fair with great attention, to ensure a pleasant and safe visit.

- Health check when entering the trade fair floor
- Disinfect hands at the entrance and exit
- There are visible markings at the location to ensure the distance between guests
- Public areas such as toilets are cleaned more often
- Walking directions via infra paths
- During presentations there is a modified room setup to ensure the distance between visitors
- Visible COVID-19 enforcers on the trade fair floor
- Permanent monitoring of the number of visitors

Ventilation

The ventilation systems of Rotterdam Ahoy are 'state of the art' and comply with the applicable regulations. The systems are able to easily bring in 100% outside air. This reduces the spread of pathogens that cause respiratory tract infections, such as the COVID-19 virus.

Safe assembly and disassembly

Exhibitors can find the safety guidelines in the Exhibitor Portal. Together we ensure a safe environment! See also the flyer 'Working safely together'.

We hope to see you at InfraTech!
